TEACHERS ORGANIZE IN LOCAL UNITS

SIX DISTRICTS ARRANGE GATHERINGS FOR SATURDAY.

MORE EFFECTIVE WORK

Aim to have Every Teacher in State an Active Members of the State Teachers Association.

During the next two weeks the teachers of northwest Missouri will organize into various local units or community associations, the immediate purpose of which is to articulate with the State Teachers' Association. The local associations must have twenty-five or more members for each official representative to the general council of the state association.

In this county the community association districts have been charted so that each one will be represented by several townships. The six districts that have arranged for meetings to be held Saturday at 2:30 o'clock are as follows:

Burlington Junction will have as delegates all of the teachers in Lincoln, Atchison, Nodaway and the north part of Green townships. Skidmore will have the south half of Green, Monroe and Hughes townships. Barnard will have Grant, Washington and White Cloud townships. Ravenwood will have Jefferson, Jackson and South Independence. Hopkins will have Union, Hopkins and North Independence. Maryville will have all of the teachers of Polk township, and the meeting will be held at the court house.

Every teacher who is a member of the Northwest Teachers' Association may become a member of the Community Association without payment of dues until the 16th of June, 1920, which is the beginning of the fiscal year. After that date $2 will admit to the Community Association, the District Association and the State Association.

There seems to be among the teachers and people generally some talk and vague speculation as to what it all means. It may help to clarify confused public opinion to know that the teachers of Missouri have been organized for fifty years or more under the corporate name of the State Teachers' Association. The same organization is to continue to exist, but it is to become more comprehensive in its membership and more effective in its work. The effect now being put forth is to have every teacher in the state an active member of the state association through many community associations. There should be a membership of more than 20,000 when organization is completed. The purpose of the organization are admirably expressed in the preamble to the new constitution, which reads as follows:

"Its object shall be the closer formation of an organization of the teachers of Missouri with the purpose of bringing about greater unity of action are not to be essentially different ards of the teaching profession, to secure conditions necessary to the greatest efficiency of teachers and schools and to promote the educational welfare of the state of Missouri."

It will be seen from this preamble that the working aims of the association are not to be essentially different from what they have been formerly. The organization still has for its aim the betterment of the schools of the state. The question of the teachers' salary is pertinent to the extent that it reflects to a greater or less degree the character of the teaching force. But, it is no more pertinent that the question of conditions of service which may have much to do with securing and holding the best talent.

The clear truth that ought to appear to everyone is that there is nothing new or startling, nothing revolutionary, nothing coercive and nothing sinister in this effort to more closely organize the teachers of the state. The one purpose of the teachers is, as it has always been, to give to the state a better system of schools and a more capable and better appreciated body of teachers.

WELL KNOWN WOMEN

Kansas City, Mo.—"When one of my daughters was about seventeen years of age she suffered terribly at times. She would be so ill that she would be unable to be out of bed for at least two days. This condition existed for a whole year and she became very thin and nervous. I was afraid she would lose her life. Some one suggested Dr. Pierce's Favorite Prescription to me and in less than three months she started to take it her development was complete. The 'Prescription' proved such a wonderful tonic that I had her take it the whole year and I felt amply repaid when I looked at her rosy cheeks. I am sure that she owes her present splendid health to the 'Favorite Prescription' which she took at that time. It is the safest and most reliable tonic for girls and women that was ever placed on the market."—MRS. M. PELSOR, 2741 Myrtle Ave.

Women Who Suffer

St. Joseph, Mo.—"I had woman's weakness and at times I would suffer with sharp pains in my right side. I took Dr. Pierce's Favorite Prescription and it gave me great relief. I do not suffer now and have much stronger since taking it. It will surely give relief if taken as directed."—Miss FRANCES TYLER, 2813 S. 22nd St.

St. Louis, Mo.—"As a tonic and pure food I have found Dr. Pierce's Pleasant Pellets to be far above any proprietary medicine. For years I was troubled with constipation. I tried a great many different remedies; then I used your 'Pellets.' I found them extremely mild but very effective."—GEO. BROWN, 7330 Hooker Ave.

Women who are worn out, weak, suffer from pain at menstrual or menopause periods, who are nervous or dizzy, ought to at once take this reliable, temperance, herbal tonic now sold by druggists in tablet or liquid, as Dr Pierce's Favorite Prescription.

What War Did to Labor.

War and war work made a heavy draft upon our workers. Estimating the number of males of producing age in the United States at 286 per 1,000 of population, the Secretary of War has published statistics showing that the war took 108 of them for its prosecution and the special activities it needed for its support. Thirteen were fighting in France, 6 were behind the lines in France, 16 were in the army in the United States, 5 were in the navy, and 68 were engaged in the war work in the United States.—The Nation's Business for February.

Urges Home Building.

Newark, N. J.—At the first annual dinner of the Real Estate Board of Newark at the Robert Treat Hotel Secretary of Labor Wilson delivered the principal address. Speaking on the own you own home campaign, he said:

"One of the principal reasons for the adoption of the slogan is that we believe that Bolshevism can find no lodgment in the minds of the men who are owners of their own homes. High rentals are not due to the cost of building, but to the demands. The only relief in everybody building more homes. Hence our slogan: 'Own you own home and build now.'"

FEWER FAILURES IN 1919 THAN SINCE YEAR 1861

Total Number of Firms Then in Business Less Than Half the Present Number.

Washington, D. C.—With fewer commercial reverses in the United States than in any year since 1881, when the total number of firms in business was less than half the number now in existence, the 1919 insolvency statement has contributed largely to an annual statistical exhibit that has had no parallel, says the Washington Star's financial expert. The industrial and mercantile repression of the early part of last year, which was a time of readjustment, uncertainty and hesitation, was not sufficiently severe or protracted to make itself manifest in the failure comparisons, and only 6,451 defaults were reported to R. G. Dun & Co. during the twelve months recently ended.

The significance of this showing is demonstrated by the fact that in 1918, when the returns were considered highly favorable, there were 9,982 insolvencies and the $113,291,237 of liabilities of 1919 not only contrast sharply with the $162,019,979 of the year immediately preceding, but are the smallest since 1905. It thus appears that last year, instead of disclosing the rise in the commercial mortality, which many people had expected, brought a further reduction of 35.4 per cent in number of failures, and a contraction of 30.5 per cent in the indebtedness, while the improvement over the early years of the war era, is, of course, far more striking.

SHE DYES HER OLD GARMENTS LIKE NEW

"Diamond Dyes" Make Faded, Shabby Apparel so Fresh and Stylish.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets Are a Harmless Substitute

Dr. Edwards' Olive Tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. For 17 years he used these tablets (a vegetable compound mixed with olive oil) in his private practice with great success.

They do all the good that calomel does but have no bad after effects. No pains, no griping, no injury to the gums or danger from acid foods—yet they stimulate the liver and bowels. Take Dr. Edwards' Olive Tablets when you feel "logy" and "heavy." Note how they clear clouded brain and perk up the spirits. 10c and 25c a box.

"SYRUP OF FIGS" CHILD'S LAXATIVE

Look at Tongue! Remove Poisons from Stomach, Liver and Bowels.

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear.

Mother! You must say "California."—Adv.

"SKIN THE CAT"

But if you won't exercise vigorously you must take "Cascarets."

There is nothing like bending exercises, taking long walks, or chopping wood to keep the liver and bowels active, but most folks take their exercise in an easy chair. Such folks need Cascarets, else they suffer from sick headache, sour, acid stomach, indigestion, colds and are miserable. But don't stay bilious or constipated. Feel splendid always by taking Cascarets occasionally. They act without griping or inconvenience. They never sicken you like Calomel, Salts, Oil or nasty harsh pills. They cost so little, too. Cascarets work while you sleep. ADV.

IN CONSTANT USE BY PHYSICIANS EVERY DAY

Medicinal Value of S. S. S. Is Fully Recognized.

Almost every human ailment can be traced, one way or another, to impurities in the blood. So you cannot overestimate the importance of keeping your circulation built up, so that your heart will be constantly pumping rich, red, life-giving blood to all parts of the system. Any slight disorder or impurity that creeps into the blood is a source of danger, for every vital organ of the body depends upon the blood supply to properly perform its functions. It is quite true that practically every one is equally exposed to the attacks of disease. You are just as liable to be attacked as the man or woman sitting next to you on the street car. It all depends upon the condition of your blood. If it is thin and impoverished, and has been allowed to reach a low state by the accumulation of impurities, you have not sufficient vitality to resist these germ attacks, and they find a fertile field in your system to spread disease.

Over a hundred years ago the Indians made many excellent remedies and tonic from roots and herbs gathered from the forests.

One of these formulas was handed down to the white man and for more than fifty years has been used as S. S. S., which is recognized as the best known blood medicine on the market.

This fine old remedy is still made as of old from roots and herbs of proven medicinal value. In fact, physicians, everywhere, recognize the wonderful efficiency of these roots, and they are prescribed in some form or other almost daily.

And now after being in constant use for more than half a century, S. S. S. is more popular than ever. It is sold by practically every drug store in the land, and every druggist is well acquainted with its sterling merit, for they have seen its results.

S. S. S. is a very valuable agent in the treatment of Catarrh, Rheumatism, Eczema, Tetter boils, pimples, skin eruptions, malaria, and other disorders that come from blood impurities.

It is also without an equal as a general tonic and system builder. By its efficacy in cleansing the blood of impurities, it builds up the appetite and gives new life and vigor to the entire body.

You are invited to write for valuable literature and medical advice, which will be sent without cost. Address Chief Medical Adviser, Swift Laboratory, Atlanta.

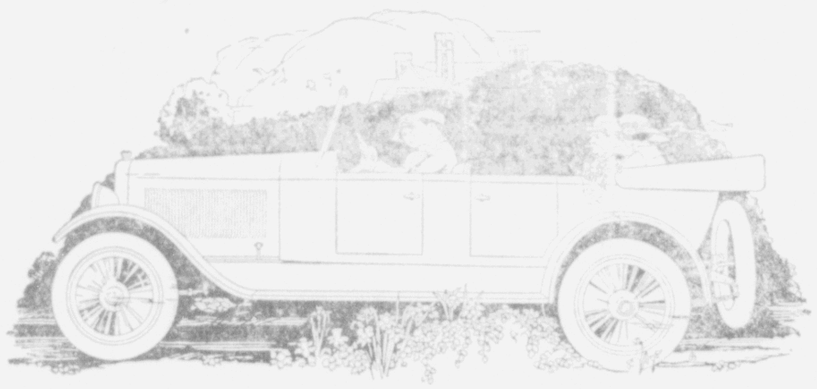
CHANDLER SIX

Famous For Its Marvelous Motor



Thousands Choose The Chandler Dispatch

MANY admirers of the Chandler Six choose the Chandler Dispatch. For two years this model has outsold all other cars of the so-called sport type. Its popularity is one of the high spots in motordom.

The new series Dispatch is a snappy, handsome car, seating four adults in perfect comfort. It is of most beautiful design and finish; mounted on the standard Chandler Chassis, famous for its mechanical excellence.

You are asked to pay much more for cars which might perhaps be compared with the Chandler. And cheap cars sell for but little less.

Old Friends are True Friends

The man, who loves a dog and a pipe, has two staunch friends that never fail him in good luck or in bad. They give all and ask nothing in return. Day by day they become nearer and dearer to him. The man who has not a dog and a pipe has missed two of the greatest things this good old world can give.

Every man who loves his pipe should know Velvet, the one tobacco that brings out all of a pipe's best and sweetest qualities. Your pipe takes on an added friendliness from Velvet's choice Kentucky leaf aged in the wood to a mellowness that's rich and smooth as cream.

Your pipe takes on a mild sweetness that is Velvet's natural tobacco sweetness. And around you hovers the *real tobacco* fragrance that all good pipe smokers love.

Never did Velvet Joe say a wiser, truer thing than this:

"Folks say you can't buy friendship. You can buy a dog and a pipe and good old Velvet—and I reckon no man ever had three better friends."

Liggett & Myers Tobacco Co.

There's a lot of pipe-loads in every big generous tin of Velvet, and every pipe-load is good tobacco at its best.

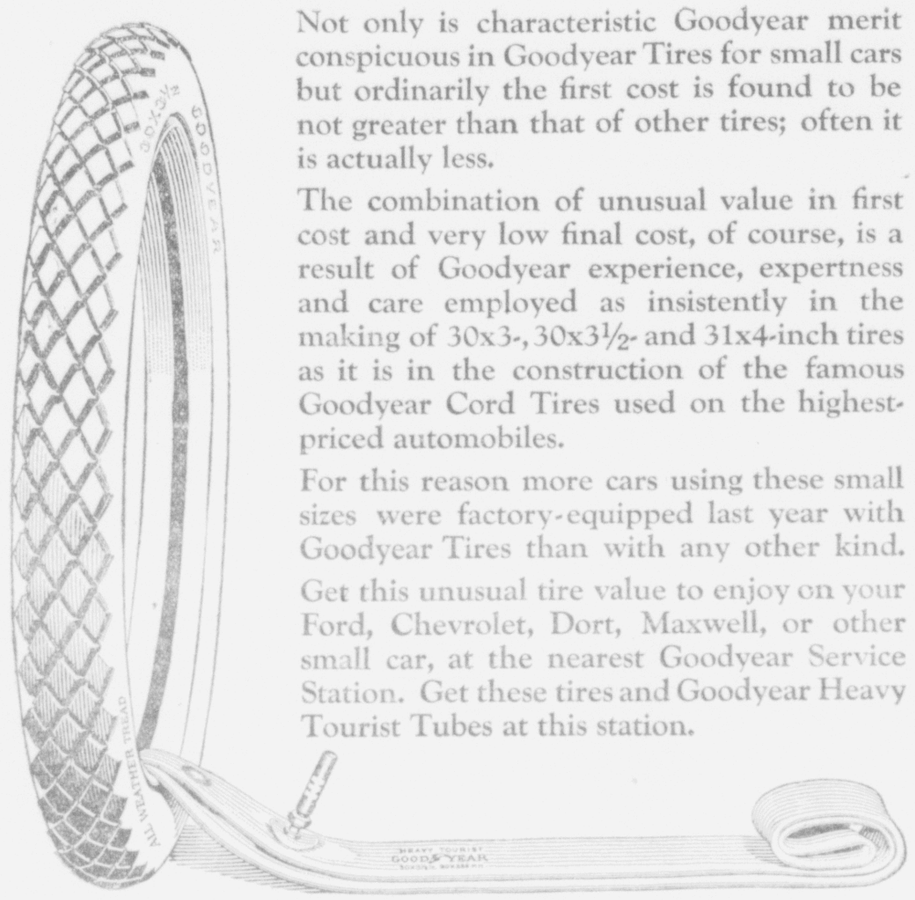
Unusual Value—In Tires for Small Cars



Not only is characteristic Goodyear merit conspicuous in Goodyear Tires for small cars but ordinarily the first cost is found to be not greater than that of other tires; often it is actually less.

The combination of unusual value in first cost and very low final cost, of course, is a result of Goodyear experience, expertness and care employed as insistently in the making of 30x3-, 30x3½- and 31x4-inch tires as it is in the construction of the famous Goodyear Cord Tires used on the highest-priced automobiles.

For this reason more cars using these small sizes were factory-equipped last year with Goodyear Tires than with any other kind.

Get this unusual tire value to enjoy on your Ford, Chevrolet, Dort, Maxwell, or other small car, at the nearest Goodyear Service Station. Get these tires and Goodyear Heavy Tourist Tubes at this station.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread..... $20.00

30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread..... $17.65

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size *in water-proof bag*..... $3.90

DRY COMMISSIONER NEVER TASTED A "SCOTCH HIGHBALL"

Strongest Thing John Kramer, Federal Commissioner, Ever Had Was Elderberry Wine.

Washington.—The official enemy of liquor never even tasted it.

John F. Kramer, federal prohibition commissioner, declares that he never touched anything stronger than elderberry wine for medicinal purposes, and he declares he will have no mercy on those who are going to be chronic invalids for the sake of "liquor."

Kramer is a mild little man. He has a sense of humor and a kindly disposition, and, most important, he has faith in humanity, so much so that he trusts it to obey the law, even the law against liquor. Kramer declares that he doesn't want to use the stringest powers that have been placed in his hands by the prohibition enforcement act unless he has to. He wants the people to obey the laws themselves.

In order to help the public out Kramer declares he is going to do a little educational work. It is a pretty hard task to educate a man with a thirst, but Kramer believes that it can be done. He is going to appeal to public sentiment and he is determined to show the evils of the "bootleg whiskey" and the "blind tiger" and do all in his power to make the public realize that liquor "as she is" is "pretty tough stuff."

The little prohobition man is building up a huge machine to aid him in his work and declares that he intends to make it pretty risky business to break the "dry" laws.

The task is no new business for Kramer; he has been identified with "dry" work for a long time. In Ohio, his home state, he is known as one of the leaders of the movement against liquor. By profession he is a lawyer, but he was a teacher and a school superintendent during the early days of his youth.

The judicial mind is one of the attributes of Kramer and he is slow to judge, but quick to act once he makes up his mind. He is not inclined to be a radical on the prohibition question; he merely wants the laws enforced. He is here to see that it is done.

U. S. FOREIGN TRADE WITHOUT PRECEDENT

S OF C. SAYS CO-OPERATION WILL PERPETUATE PROSPERITY

TO EXTEND ACTIVITIES

Trade Balance for 1919 will be Approximately four Billion Dollars.

Washington, D. C.—The closing year has witnessed a fabulous growth of American foreign commerce far beyond the dreams of five years ago, and there is every reason to believe that with intelligent co-operation and unselfish regard for the public welfare, America's national prosperity will continue, declared Secretary of Commerce Joshua W. Alexander, in summing up the commercial outlook for 1920. Secretary Alexander's New Year statement said:

"Our trade balance for the year 1919 will be approximately four billions of dollars. A great fleet of merchant ships, new industries, new sources of supply and increased knowledge of our own resources are some of the assets gained from our war experience with which we are fortified to meet new conditions.

"Before the war we were engaged for the most part in the development of our own business, with little serious thought of extension of our activities into world markets, and we were too indifferent as regards our position of inferiority on the high seas. Today we are awake as never before. The pride of ante-bellum days is revived and and we look to see our flag at the masthead of an American merchant ship in every important seaport of the world, carrying American goods wherever markets may be found.

"Abnormal conditions, we hope, are passing. The tremendous increase in the exports of the war period, made up largely of military supplies, and the still greater exports of the months following the war, in which foodstuffs figure largely, may not continue indefinitely. These tremendous figures have brought satisfaction to all, but give grave concern to those who look forward to conditions in 1920.

"The exchange situation in Europe is a grave problem and is so uncomfortable for foreign buyers as to necessitate in some cases government restriction on buying. The tendency is to limit purchases to necessities. If we would continue our foreign trade at its present high level there must be a freer and fuller exchange of commodities and a very large extension of credit to European buyers. So let us look for the return of a more normal condition in which buying and selling will be of benefit and profit to both sides. On that basis we may build a commercial structure which will rest on a firm foundation.

"It is too much to expect that normal conditions, for which we are all so impatient, should come within the fourteen months since the signing of the armistice. The wonder is that the situation is not more unsettled. Existing conditions are not unlike those following other wars, only the problems are of greater proportions and more complex. Our domestic situation is not free from difficulty.

"Let us hope that in the year 1920 there will be less social unrest, that production will increase and living costs be gradually reduced and that by intelligent co-operation and unselfish regard for the public welfare our national prosperity may continue."
